Subject: IATA Compliance for Cryogenic Dry/Vapor Shippers

To Whom It May Concern:

IIC Biomedical's cryogenic dry/vapor shipping containers are compliant with the 54th Edition of the International Air Transport Association (IATA) Dangerous Goods Regulation PI202 – PACKING INSTRUCTION 202 for Open Cryogenic Receptacles as outlined in sections (A) through (I).

These containers are safe for international shipping: IATA Dangerous Goods Regulations Exempt per Special Provision 152.

For further information, please contact IATA directly at:
